

Full tilt poker continues to revolutionize the online poker industry but this time it's huge: RUSH POKER. This is a new type of poker game. Rush poker is quick, fast-paced and the players are always in action.

How does it work?

Whenever you fold your hand you get randomly transferred to another table and the action begins again. You no longer have to wait for other players to fold. There is a quick fold button which lets you move on to the next table. You won't find a faster poker game anywhere. Give rush poker a try, I'm sure you are going to be impressed.
